

"I found the book to be unique in its format and encouraging to its readers, providing thought provoking insights." —Finn Laursen, CEAI Executive Director

One God, Two Voices is a revealing look into the educational, racial, social, and spiritual issues challenging today's families and their students as shared by two educators from different racial and cultural backgrounds.

"Your message touched my heart repeatedly as I read *One God, Two Voices*. As a retired educator and a Christian, I was so pleased two of my colleagues shared how teachers can spread the love and grace of our Lord inside and outside of the classroom. I know that God wanted to speak to me through new voices, and the two of you provided that opportunity. Your witness to Him is evident from the first word to the last. What an amazing feat. I hope thousands and thousands of teachers (and others) read your book and are blessed by your witness and example as I was. It should be on every teacher's reading list. God bless you, my friends."

—Sue Edwards, Retired Educator and Administrator
