**Keynote: Finn Laursen**, Christian Educators Association International (CEAI)  
Educational Consultant **Questions?** Email [finn@ceai.org](mailto:finn@ceai.org)

Finn takes for granted that we are all full-time missionaries, but raises the question of how we are doing in that role? Our Constitution allows us to expose our faith, while our Lord requires it.

Finn will:

- give an overview of the many freedoms public school educators have to live out their faith in the public arena.
- capture the intent of our nation's founding fathers regarding what the separation of church and state really means.
- cast the vision that our public school campuses are truly a mission field ripe for the harvest.

This exciting experience will include open discussion on what is legal, but also on what works.

Prior to his leadership role at CEAI, Finn Laursen was a public school educator in OH for 32 years: teacher, MS & HS counselor, MS & HS assistant principal, HS principal, and the last 11 years a public school superintendent.

Finn has:

- traveled around the country as a speaker and trainer about legal freedoms in our public schools.
  - presented in such venues as the *National School Board Association Convention*.
  - provided training of ministry leaders in ministries such as *Youth For Christ*, *First Priority*, *Young Life* and *Sports World*.
  - testified as an expert witness for educators in local and federal court and led CEAI as a plaintiff in the *Friedrichs vs CTA* heard at the US Supreme Court attempting to stop forced unionism.
